Social Media and Social Media Management

Artificial Intelligence Intern
Techmicra IT Solutions
May 2026 - Jun 2026 · 2 mos

Engineered preprocessing/feature pipelines (NumPy/Pandas), trained and evaluated regression and classification models with Scikit-learn, and deployed model-serving REST APIs with Flask to production on Vercel.

Automation Engineer
T.I.M.E. (Triumphant Institute of Management Education) · Internship
Jun 2025 - Jul 2025 · 2 mos
Ahmedabad, Gujarat, India · On-site

Automation, WebDev and +3 skills

Automation & Web Developer
Triumphant Institute of Management Education Pvt. Ltd.
Jun 2025 - Jul 2025 · 2 mos

Automated a daily student-notification pipeline (Python, Docker, Twilio WhatsApp API), improving communication efficiency by 30%, and built a React/MongoDB web app to drive student engagement.

engagement.

Junior Manager OGTA AIESEC

AIESEC · Part-time
Aug 2024 - Feb 2025 · 7 mos
India · Hybrid

As an OGTA (Outgoing Global Talent) member at AIESEC, I help students and young professionals find internships abroad. My job is to understand their goals and match them with the right international opportunities. By doing this, I support their growth and help them gain valuable global experiences.

Cross-team Collaboration and convincing

The Akshaya Patra Foundation

2 mos

Web Developer

Internship
Jun 2024 - Jul 2024 · 2 mos
Ahmedabad, Gujarat, India · On-site

Created the 'Sensory Report,' a dynamic web application using HTML, CSS, JavaScript, Node.js, Express, and MySQL to transform student feedback collection for menu optimization at Akshaya Patra. Designed user-friendly interfaces for easy feedback submission and data visualization, boosting user engagement and satisfaction. This led to actionable insights for enhancing daily menu choices.

Skills: HTML, Cascading Style Sheets (CSS), +3 skills

Web Development Intern

Jun 2024 - Jul 2024 · 2 mos

Automated reporting and sensor-driven workflows for 2 industrial kitchens (20+ staff), improving operational efficiency by 30% and saving 10+ hours/week.

Cyber Security: DevOps Specialization – Macquarie University Certificate

Official specialization certificate awarded by Macquarie University via Coursera for completing three courses: Cyber Security: Applied Cryptography, Cyber Security: DevSecOps, and Cyber Security: Security of AI. Focuses on applying cryptographic protocols to protect data, embedding automated security controls (SAST/DAST, IaC security) across CI/CD pipelines, and defending AI systems against adversarial threats, data poisoning, and model theft.

A moment I'll definitely remember. 🇮🇳

Last week, I was honoured to be recognised among the Top 8 Sanchar Mitras across Gujarat for the academic year 2025-26 and was felicitated by the Department of Telecommunications, Government of India - Gujarat LSA.

Being a Sanchar Mitra has been a really meaningful experience for me. From interacting with people and spreading awareness about digital literacy, telecom safety and online fraud, to learning more about how technology can actually make a difference in people's everyday lives, I got to learn a lot throughout this journey.

Getting recognised for something that I genuinely enjoyed doing makes it even more special.

A big thank you to the Department of Telecommunications, Government of India and the Gujarat LSA team for this recognition and for giving us students the opportunity to be a part of something like this.

Grateful for the experience, the people I met along the way, and everything I got to learn.

Proud to be a Sanchar Mitra.✌️

Hello everyone!

Happy to share that my research paper, "Federated Transformer-Based Learning for Predicting ICU Events with Multi-hop XAI Explanation Models," is officially published in IEEE Xplore.

The paper focuses on building privacy-preserving, collaborative AI systems for intensive care units, allowing for accurate event prediction without exposing sensitive local clinical data.

You can check out the full paper here: https://lnkd.in/duxJmhHa

Hello Everyone!
Reflecting on a meaningful milestone from this year, I am pleased to share that 4 of my research papers have been accepted for presentation at renowned international conferences.
Three papers were selected for COMSYS 2025: 6th International Conference on Frontiers in Computing and Systems in Warsaw, Poland, and one paper was accepted at ICDSINC 2025: International Conference on Data Science and Intelligent Network Computing, hosted by NIT Raipur.

Each of these works was a unique journey of collaboration, and I extend my sincere gratitude to my co-authors — **Taher Gandhi**, **Yug Dave**, **Vineet Ameta**, **YASH RAVAL**, **Utkarsh Mishra** and **APARNA KUMARI** — for their valuable insights and contributions. It has been an honour to work alongside them.
I am truly humbled that our research has been recognised by the academic community at such esteemed platforms, and I look forward to pursuing further explorations in this space.

HARVARD COLLEGE PROJECT FOR ASIAN AND INTERNATIONAL RELATIONS

The Harvard College Project for Asian & International Relations
Office of the Presidents & Executive Board
59 Shepard Street, Cambridge. MA 02138
United States of America

Dear Sujal Lohar:

Congratulations! We are excited to inform you that our Admissions Committee has selected you for the 2025 HPAIR Asia Conference at The University of Tokyo in Tokyo, Japan. On behalf of the entire team at the Harvard College Project for Asian and International Relations (HPAIR), please accept our warmest congratulations!

Our team thoroughly reviews each written application and carefully considers every interview. We accept only those who show the most significant promise and potential and will contribute most to our 2025 HPAIR Asia Conference (ACONF). Based on your previous experiences, merit, and passion, we hope you will share your unique ideas with fellow delegates worldwide at ACONF 2025.

This year's Asia Conference theme is Reinventing Vitality: Momentum and Memory. HPAIR's goal is to create a global community of individuals dedicated to collaborative achievement, and this year's theme reflects our values of conservation, connectivity, and creativity. From understanding how to keep dynamics in society while embracing uniqueness in a globalized world, this conference invites participants to explore approaches to innovation.

In the past few years, our conferences have featured global business leaders (CEO of McKinsey & Co., COO of Zoom), top government officials (former Vice President of the Philippines, U.S. Trade Representative, former Chief Secretary of Hong Kong), international celebrities (Janice Koh, Anupam Tripathi), Nobel Prize winners (Muhammad Yunus, Seth Shelden), among many others! This upcoming conference will occur from August 20-24, 2025, in Tokyo, Japan. It will allow you to engage with even more renowned speakers, network with fellow delegates, and create lifelong memories and connections.

As the Co-Presidents of HPAIR, we want to congratulate you on your acceptance and warmly welcome you to the HPAIR community. We look forward to meeting you in August!

Warmly,

Michelle Jiang, Gulirano Almuratova, and Henry Chen

Hello Everyone!
I am honoured to have represented India and **Nirma University** at the Harvard Conference 2025(**Harvard Project for Asian and International Relations (HPAIR)**) in Tokyo, Japan🇯🇵.

During my presentation, I explored forward-looking solutions to some of Japan's most pressing demographic challenges, from declining fertility rates to strengthening cultural identity and diaspora ties. The experience gave me a unique platform to approach policy and social innovation from a research-driven perspective, while engaging with inspiring delegates from across the world.

I extend my gratitude to **CSE Department Nirma University** and **ROTARACT CLUB OF AHMEDABAD EMERALD** for their encouragement, and to my mentors **APARNA KUMARI**, **Sri Krishna** and **Shashank Jani** for their constant support.

A special thanks to my co-presenters, **Apolinario Schramm**, Shino Ishikawa, **M Harish Jain**, Yashwani Jharwal, Yadeesh Kumbalathil Ramesh, and **Realeyne Gapultos** for the collaboration.

It was also a great experience to connect with
